ANIMAL TREATS & MORE

Great Treats ~ Great Animals ~ Great Living

Pets enhance every aspect of our lives with their loyalty and love. Houses become homes when pets join the family... and more than 68% of us have pets! Our pets deserve the best of everything, and discerning pet owners spare no expense on their care. North Woods Animal Treats & More celebrates Great Animals with Great Products from the North Woods where life is clean, simple, fresh...nature at its finest.

Only All Natural

You will never find any chemicals or additives on the ingredient lists for our products. Treats contain only natural preservatives like Rosemary

Extract. Soaps and body products contain oils and ingredients you would find in those you use. All toys and accessories are made of natural fibers and materials and are designed for safety and fun. We want our animals to live as long and be as healthy as possible. All natural is the only choice we can make.

Made In The U.S.A.

100% of our products are made and sourced here in the USA. The testing and controls in this country make our products safer, not to mention providing jobs and helping to support the economy. We also support the Center of Hope, a workshop for challenged adults. They shrink-wrap, label, and prepare our products for shipment. Great products and a good cause.

Small-Batch Baking

Our cookies and treats are baked by hand in small batches.

Better taste results from products that are not assembled in huge industrial environments. We are committed to the better quality control that small-batch baking provides.

Human-Grade Ingredients

All our ingredients are human-grade. We use only the finest...you could eat our cookies! Why would we feed our pet family members any less? Human-grade ingredients mean cleaner, higher quality and better taste.

We Are Green

We believe in leaving as small a footprint as possible on this Earth. Our packaging is made from biodegradable materials, wherever possible, recycled corrugated. Our display and gift crate are reusable, made of wood.
