

The image features a dense, repeating pattern of stylized botanical elements. The design is composed of clusters of small, five-petaled flowers in light blue and yellow, interspersed with larger, dark green leaves and stems. The overall aesthetic is reminiscent of early 20th-century decorative arts, such as the Arts and Crafts movement or Art Deco influences. The pattern is set against a dark green background, creating a high-contrast, textured effect.

FRINGE

Welcome to the 2023 world of FRINGE—
an ever-evolving, exploratory design studio.

We're pleased to offer you a carefully edited, new line of paper goods, textiles, and ceramics. This year our team focused on the items we personally want to use: what we most want to write on, carry our stuff in, or drink from, in our daily lives.

Style-wise, you will find a fresh mix of antique and modern art. Our newest collection, titled Memento, is inspired by flea-market finds. It is a thoughtful, eclectic group with a distinctly classic point of view.

The Esprit Collection has been expanded and elevated with bold, artful, modern shapes in unexpected color combinations.

On a practical level, we want you to know that we're considering our impact on this planet. We're striving to create products that support rather than deplete the earth's available resources. In this pursuit, we have improved the paper materials we're using. You'll find additional notes about this on the back cover. We hope you'll join us in eliminating the unnecessary while still celebrating the joyful experience of being human.

Here's to 2023 and all the hope a new year brings!

2023 MEMENTO LOOKBOOK

European flea market finds set the tone for this new and eclectic collection. Vintage French textile art and mid-century style drawings hearken back to Fringe's classic design roots; however, this year's collection is more modern and fun. Each piece of art has a story to tell, so we have featured it on the stationery endpapers. Black provides an anchor to a varied palette and gives off edgy Victorian vibes.

The muted palette is accented with occasional pops of lemon, lavender, and apricot.

The only trend we're chasing here is authenticity.

2023 ESPRIT LOOKBOOK

Part seventies-cool, part mid-century simple. Esprit is whatever you want it to be. Modern graphics are always fashionable and provide a welcome relief from visual noise. This bold and confident collection is youthful but has sophistication that appeals to all ages. Unexpected color combinations elevate. Brought to you by Fringe artists who made the art they wanted to make.

2023 PRAIRIE LOOKBOOK

Moths, mushrooms, beetles, and snakes mingle among wandering vines and flowers. Inspired by William Morris and the decorative Arts & Crafts movement, PRAIRIE evokes a simple life lived at the edge of the woods or out on the prairie.

These warm and detailed illustrations appeal to our sentimental side.

Created for those who love the quiet world of nature.

2023 CANVAS LOOKBOOK

This eclectic art collection juxtaposes delicate, painted florals with modern graphics and patterns. Created in the studios of both Fringe and collaboration artists, with real paintings and drawings. Authenticity in the art and pottery is essential in this group- conveying a hand-made look and feel which remains popular year after year.

The flip-top Artist Sketchpad shown below is made with earth-friendly, tree-free Stone Paper pages. Stone Paper has a velvety-smooth surface, which is difficult to tear. The paper is water resistant and will not buckle when wet, making it suitable for all mediums, from pencil to watercolor. It's an entirely different writing and drawing experience, one we hope you will try.

FRINGE is making efforts to becoming more earth-conscious by introducing alternative recycled and sustainable materials. All new stationery items in this catalog use FSC-certified paper, meaning the wood harvested to create the paper materials has been sourced by responsibly managed forests overseen by The Forest Stewardship Council A. C. We are also relying more on book cloth instead of polyurethane (PU) materials to tell our creative stories and showcase our art. FRINGE is committed to this earth-friendly path and are grateful to the buyers who weigh these issues seriously, and support our effort to improve our business practices.
