

CREATE MEANINGFUL MOMENTS

WHAT HAPPENS WHEN we take time to sprinkle a little extra kindness wherever we are? Compendium's story begins with that simple question.

Excited to discover the answer, we created our first pop-open cards. These little cards, with their hidden messages of hope, quickly made their way around the world. They were given to teachers and students, cancer patients and nurses, coworkers and loved ones—each time sparking unexpected delight.

Now, nearly 40 years later, millions of our joyful messages have touched the lives of people around the globe. And we've discovered that every small act of kindness isn't so small. Each one creates meaningful moments of connection—moments that have the power to make all the difference.
