FUN AND BRIGHT IDEAS

dreams6usa.com

Fun & Bright Ideas, Over 25 Years in the Making

Like our company color, orange, our goal is to make every day brighter and more enjoyable through our unique variety items.

Planned and developed at our headquarters in Tokyo, Japan, our product range includes gifts, toys, accessories and collectible figures.

We transform small products into big markets

Meeting the global need for “healing”

Our mission is to help to create the moments when you can relax from the pressures of your busy life. Those moments of healing. Healing born from scent, healing seen through the eyes, healing that can be held in your hand. Providing some degree of happiness and daily healing is our pleasure and the motivation behind our constant efforts to create better product.

Exceeding Expectations

We strive to offer great values – appropriate prices for quality items – to make them accessible. We build distribution networks for large and small retailers so that consumers can find our items. We are committed to treating every retailer with respect and to supporting their sales efforts with products, point-of-sale displays and profitable programs.

“I wish I’d thought of that”

At trade shows, on sales calls and in other conversations, our retailers repeatedly comment, “That’s clever; I wish I’d thought of that.” Our international distribution provides us with varied perspectives on what is fashionable and novel. The task then falls on our Japanese design team to integrate these concepts into unique, fun, practical and innovative products that make people smile.

About Mini Figures

A major feature of the Sonny Angel series is that each series consists of 12 different mini figures in 'blind box packaging'. This means that the customer does not know which Sonny Angel they will get until they open the package. Each series also includes secret figures to collect that are very rare.
