ENVIRONMENTAL AND SOCIAL ADVOCACY

Hydrascape supports nonprofit and environmental organizations across the country. We made donations to The Nature Conservancy, National Parks, VAMOS Outdoor Project, RE Store and the Sierra Club in 2021.

We seek to advocate for the environment by endorsing the use of reusable water bottles as the main focus of our product marketing. To limit waste, we continue to use recycled material on our tags and have reduced the wasted vinyl on our sticker backing by including bonus stickers that feature iconic animals. All of our products are manufactured locally in Bellingham, WA just a block away from our studio.

Lastly, we strive to create meaningful representation about the lands in our designs including Indigenous land acknowledgments and information about the rich history of each region in our product descriptions, marketing and social media posts.
